

YATIN KASHYAP

Ahmedabad, Gujarat, India | +91 9924111787 | yatinkashyap1252@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

TECHNICAL SKILLS

- **Programming Languages & Databases:** Python, JavaScript, SQL, MongoDB
- **Frameworks & Technologies:** React.js, React Native, Next.js, Node.js, Flutter, Odoo, Owl.js, Firebase, REST APIs, Socket.io
- **Developer Tools & AI/Data Science:** Git, GitHub, Postman, TensorFlow, Pandas, NumPy, Matplotlib, Streamlit, Scikit-Learn

PROFESSIONAL EXPERIENCE

Surekha Technologies **Ahmedabad, India**
Python Developer Intern Jan 2026 - Present

- Collaborated directly with clients to gather requirements, provide project updates, and deliver customized Odoo solutions within deadlines by developing Python-based modules, XML views, and workflow automations tailored to business needs.
- Contributed to multiple Odoo migration projects, optimizing PostgreSQL queries and ensuring seamless system upgrades through data migration, module compatibility validation, functional testing, and bug resolution before deployment.

The GoodGame Theory **Bangalore, India**
UI/UX Intern & Team Lead Feb 2025 – Aug 2025

- Spearheaded a 5-member design team to architect a centralized design system, reducing design-to-development rework by 20%.
- Engineered high-fidelity prototypes and user flows that optimized core product navigation efficiency by 25%.

CSRBOX **Ahmedabad, India**
Data Analyst Intern Jul 2025

- Automated data analysis and reporting workflows using Python, streamlining the processing of large structured datasets.
- Created interactive visualizations and analytical reports to support data-driven decision-making and business performance tracking.

Webitto Infotech **Ahmedabad, India**
Flutter Intern Jun 2025

- Developed and maintained 10+ responsive Flutter screens, ensuring seamless cross-platform performance and 100% UI consistency across Android and iOS devices.
- Integrated and optimized 5+ RESTful APIs using asynchronous state management, improving application responsiveness by 30% and supporting real-time data rendering.

PROJECTS

AI Blind Assistant System - [link](#) *Python, OpenCV, YOLO, OCR, Machine Learning*

- Developed an AI-powered assistive application integrating object detection, OCR, currency recognition, and color analysis to support visually impaired users.
- Improved currency detection accuracy to 88.46% and combined five computer vision modules into a unified real-time voice-assisted interface.

Pixel Fox Maze Adventure - [link](#) *Python, OpenCV, Pygame, Computer Vision*

- Engineered a gesture-controlled maze game that translates real-time webcam input into player movement using color object tracking and centroid detection.
- Designed a procedural maze generation system based on DFS and developed a pixel-art gaming interface with dynamic game statistics and win-state management.

GlobePath | AI Travel Planner - [link](#) *React Native, Node.js, Gemini API, Firebase, Tailwind CSS*

- Built an intelligent travel planning platform that generates personalized itineraries based on destination, budget, travel style, and duration.
- Integrated Gemini AI for dynamic itinerary generation and Firebase for authentication, cloud storage, and real-time user synchronization.

SafarGo - [link](#) *React Native, Google Maps API, Stripe*

- Integrated Stripe payment workflow, caching, mock ride data, and scalable mobile app architecture for a smooth cab-booking experience.
- Built a React Native ride-booking application with authentication, ride scheduling, driver management, Google Maps integration, and custom alert handling.

EDUCATION

Vishwakarma Government Engineering College (GTU) 2022 – 2026
Bachelor of Engineering in Computer Engineering **CGPA: 8.23 / 10.0**

CERTIFICATIONS & ACHIEVEMENTS

- Google AI Workshop
- The Agnirva Space Internship Program (ISRO)
- Oracle Fusion Cloud Applications
- ChatGPT Bootcamp
- Semi-Finalist, HackNUthon 6.0
- Participant, Smart India Hackathon 2024
